## Kvalifikationer

Veterinær onkologi, DipECVIM-CA(onc), University of Cambridge

1 jul. 2013 → 31 aug. 2017

Dimissionsdato: 1 apr. 2019

Molekylær onkologi, PhD, University of Glasgow

1 sep. 2005 → 31 aug. 2008

Dimissionsdato: 1 jun. 2009

My research is primarily focused on comparative oncology and applied clinical genetics, with a focus on the comparison between humans and dogs. We now know that not only is the biological behaviour shared between certain cancer types in humans and dogs, we also see shared mutational patterns and mutation hotspots. By studying the genetic landscape of different cancer types within and between species and correlating this to biological behaviour we can gain important insights into what is important for cancer to develop and metastasize.
